PROJECTS

Inventory Management

<https://inventorymngmnt.herokuapp.com/>

Inventory management software is a software system used for tracking inventory levels,orders,sales and deliveries. The App has been made using MERN stack.

COVID-19 TRACKER

<https://cherindranath-covid19-tracker.herokuapp.com/>

This app tracks the covid cases all around the world and you view stats of individual cases as well. I have used React,React hooks for loading and remembering information when page loads or changes,Material UI for icons, Chartjs for displaying covid casees information in graphs.

API used: <https://disease.sh/>

My Portfolio

This site has theme changing capability. This site contains personal info of me and it shows some of my previous work and contact info.
